

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

PREFACE.

The present work had its origin in the scheme sanctioned by the Government of India in November 1868 for the discovery and preservation of the records of Ancient Sanskrit Literature in India. In the distribution of the funds granted for carrying out that plan, Mysore was associated in one circle with Madras ; and the latter Government in November 1870 placed the services of Dr. Burnell at the disposal of the Chief Commissioner of Mysore for the examination of Sanskrit manuscripts, but nothing seems to have been done under this arrangement.

Meanwhile a catalogue, containing 608 numbers, of the Sanskrit works in the Sarasvatî Bhandâram Library of His Highness the Maharaja of Mysore had been compiled under the direction of Colonel G. B. Malleison, c. s. l., Guardian to the Maharaja, which was forwarded in October 1869 by the Chief Commissioner, Mr. L. Bowring, c. s. l., to the Government of India, who sent it through the Bombay Government to Dr. Kielhorn at Poona for report. This gentleman farther in January 1874 sent up a supplementary catalogue of Sanskrit manuscripts in the same Library, comprising 270 works, some of them being re-catalogued from the former list. Dr. G. Oppert, also, who published one volume of the Madras catalogue in 1880, included in it 139 works belonging to the Âsthâna Pandit at Mysore.

In February 1878 the Government of India, on reviewing what had been done to give effect to the scheme of 1868, called for the opinion of the Local Governments as to the desirability of redistributing the work, and of Mysore and Coorg being attached to the Madras circle. This resulted in my appointment in July 1880 to institute the necessary inquiries and compile a catalogue of Sanskrit manuscripts existing in Mysore and Coorg. Printed forms were at once circulated to be filled up for this purpose, but all were not received back till last Christmas.

The information here embodied has been chiefly obtained through the local authorities, as the work had to be done in conjunction with my other duties, and during part of the time I was absent at Calcutta on special duty as Secretary to the Education Commission. A personal

examination of the manuscripts therefore, with the view of supplying further details in regard to their age, &c., or correcting inaccuracies which could not otherwise be determined, was not possible ; but the particulars given in the catalogue will it is hoped prove of service to Sanskrit scholars as a guide to the old literature here extant. The lists are exclusive of those previously published, referred to above, some of the works in which were obtained by me on loan for Dr. Eggeling at Edinburgh.

Incidentally the present investigation has yielded a rich harvest in bringing to light the interesting and unknown body of Jaina literature belonging to the earlier period of the Kaunāḍa (so-called Canarese) language. These results have been communicated to the Royal Asiatic Society of Great Britain and Ireland.

It only remains to express my thanks to the Deputy Commissioners of Districts for the interest they have taken in procuring the lists of manuscripts, and to K. Rama Rao, appointed to assist in preparing the catalogue.

BANGALORE,
July 1882.

LEWIS RICE.
